WORK EXPERIENCE

Grofers   Mar 2015 — Aug, 2015

Internship

My role basically involved handling inventory management part.

• Worked on Excel uploads and Downloads for Content Management System.
• Worked on merchant integrations for NewU, Sangeetha Mobiles, Reliance Fresh, Sahakari Bhandar etc.

Grofers   Aug, 2015 — Present

Software Engineer

My role basically involves writing REST backend services related to catalogue QC that is to be consumed by other teams or the Catalogue QC Dashboard . Apart from this, I also wrote backend services for Content Team.

• Worked on automating inventory management by creating backend services for Inventory Management App which speeds up the process of merchant's inventory onboarding and updation by using UPC's of a product.
• Worked on management and scaling the infrastructure of the server on which these services were deployed.
• Was Responsible for setting up MongoDB cluster for a catalogue generation services.
• Query optimisation for speeding up the response time of various services which interacted with PostgreSQL database from Django.

QUALIFICATIONS
